CLIENT

Our Story

The journey began in 2014 through Vaito U Limited, an agency that provided branding, printing, signage, promotional materials and related visibility solutions to businesses and organisations. Over the years, this work built a strong portfolio, practical industry experience and a deeper understanding of what businesses value when choosing a branding partner: quality, professionalism, reliability and timely delivery.

As Vaito U Limited evolved into Contivibe Media, with a greater focus on media and related services, its branding, printing and visibility business was transferred to Primedean Limited in 2024 following an acquisition process. Primedean therefore inherited an established portfolio, industry experience, client understanding and practical knowledge developed since 2014.

At the heart of our story is a challenge our founder experienced firsthand. While sourcing professional branding and printing services, she encountered delayed deliveries, inconsistent quality, poor finishing and suppliers who struggled to meet agreed timelines. She realised that this was not an isolated experience. Many businesses and organisations in Uganda faced similar challenges when trying to find dependable partners capable of delivering professional branding and visibility solutions on time and to the expected standard.

For many businesses, this also meant working with multiple providers for signage, printing, promotional materials, event branding and other visibility requirements. What should have been a straightforward project could quickly turn into multiple follow-ups, inconsistent outputs and missed deadlines. Primedean was established to help close this gap.

We provide businesses and organisations with a dependable partner that can manage their branding and visibility requirements from concept to completion. From understanding the brief and developing creative concepts to sourcing, production, printing, finishing, installation and delivery, we focus on making the process professional, efficient and reliable.

Today, our solutions span signage, printing, promotional merchandise, visibility and outdoor banners, event branding, office branding, vehicle and motorcycle branding, and customised brand visibility solutions.

Our Vision

To be the trusted partner behind Africa's most visible brands.

Our Mission

To build visible, memorable brands that inspire confidence and drive growth.

Our Core values

Our Brand Purpose

To help businesses and organisations build professional, visible and memorable brands through reliable solutions that support their growth.
